

CID Centro Internazionale della Danza

Soggetto: ASSOCIATION

Deals with: TRAINING

CID Centro Internazionale della Danza is dedicated to the development of contemporary dance and creation. It was born from the experience and the passion of Associazione Incontri Internazionali / Festival Oriente Occidente in Rovereto.

The activities offered by CID focus on the improvement of young dancers and choreographers with stages, workshops and a seminar residency centre for individual artists or dance companies elaborating their own experimental and research projects with 360° support.

CID promotes the culture of dance in Italy and represents an exchange point at European level. For autumn 2019 CID offers, to those who want to deepen their artistic training, a variety of opportunities including technical and creative improvement with dancers and choreographers of national and international fame.
