

Teatro La Ribalta

Soggetto: COMPANY

Deals with: PRODUCTION, PROGRAMMING, TRAINING

The Ribalta theatre – Kunst der Vielfalt is a professional theatre company made up of men and women with and without disabilities. Their actors do not hide their conditions in any way, rather they base them on the search for an artistic identity.

The "distinctive" capabilities of all the actors and dancers at the Ribalta Theatre - Kunst der Vielfalt do not intervene to "put in place" the communication, but establish the nature of communication itself, and its possibilities and truth. There is no content nor container, because the "organicness" of the presence is such that blends body and mind, intention and action, technical resources and personal content. These actors and actresses do not ask for indulgence and invite us to keep the emotion away; They do not claim any therapeutic action in their act, because therapy is forced to stop at the threshold of a mystery that belongs to the inexplicableness of art.

In 2015 the company received the Eolo Award (EOLO is the official theatre magazine for Italian teenagers) for the show *H+G* as the best newcomers in 2015 in the sector of children's theatre. It was awarded with the will of the Teatro alla Ribalta-Kunst der Vielfalt to propose to the public a theater of professional quality which is the guarantee for a true cultural and social inclusion, to give the word to the excluded through a cultural and political act which is, In the first sense of the term, the Theater.
